

PMAPS 2022 Call for Papers

-----:

IMPORTANT DATES

16 January 2022 - Submission of full papers (**extended, firm deadline**)

The link to submit your full paper will appear here in due course. Please carefully read the instructions below before submitting your paper.

To comply with IEEE guidelines, your paper should satisfy the following requirements:

- the paper must fit the scope of the conference (if you are not sure, just get in touch to ask).
- the paper must not exceed the 6 page limit.
- the layout of the paper submitted must strictly follow the **IEEE PES conference paper template** (available here: <https://www.ieee-pes.org/templates-and-sample-of-pes-technical-papers>). Please **do not** submit using the “Transactions/Journal Papers” template.

15 March 2022 - Notification of authors about the acceptance of papers

Corresponding authors will be notified by email and will receive the instructions to transfer the copyright of their paper to IEEE. Note that this is required to include your paper in the Proceedings. In addition, note that papers will only be included in IEEE Xplore if presented by one of the authors.

15 April 2022 - Submission of final documents

Please submit all the final documents by this deadline. More details and instructions will follow.

TEMPLATES

The template for the **IEEE PES conference paper template** can be found here: <https://www.ieee-pes.org/templates-and-sample-of-pes-technical-papers>.

Authors should strictly adhere to this template for all submissions.

TRANSACTIONS PAPERS

Authors of recently accepted but not yet published relevant IEEE PES Transactions Papers (please see the list of eligible Transactions below) are invited to submit their papers to PMAPS 2022. The link to submit the details of your paper (code, title, authors, and abstract) will appear here in due course. These papers will be directly accepted without further review and will be allocated to an oral presentation session.

- IEEE Transactions on Power Systems
- IEEE Transactions on Power Delivery
- IEEE Transactions on Energy Conversion
- IEEE Transactions on Smart Grid
- IEEE Transactions on Sustainable Energy

IEEE PES Transactions papers will only be eligible for presentation if they are available on IEEE Xplore (Early Access included) and have a publication date no earlier than 16 January 2022.

ROY BILLINGTON STUDENT PAPER AWARD

To acknowledge and encourage excellence in power system uncertainty research by students, a prize for the “Best Student Paper” will be awarded. The Roy Billinton Award recognizes outstanding work by students in the field of Probabilistic Methods and Practical Approaches for managing Risk and Uncertainty in the Electric Power Industry.

Eligibility for the award is restricted to papers which are first-authored by a student. More information regarding the award will be announced at a later time.

If your paper is eligible for this award and if you want to be considered for the Roy Billinton Award then please select the appropriate box in the submission system.
